

TRUE PROFESSIONALISM IN PROJECT MANAGEMENT

Join the Elite Group of PMPs

Why Become a PMP?

Organizational leaders are seeing the value of the Project Management Institute's (PMI) Project Management Professional (PMP®) Certification for their project management practitioners in having:

- The capacity to standardize organizational project management processes and procedures;
- Knowledgeable practitioners with a shared understanding of the lexicon and processes required to execute projects on time, on scope, and within budget;
- A built-in base of mentors to work with and teach others;
- A state of the art certification examination based on global standards in certification examination;
- Having the same exam, and hence, the same distinguished career path compatible with international project management peers around the globe.

PMP Course Outlines

As global Registered Education Provider of the PMI, our PMP preparation course is reviewed and approved from a PMI - quality auditor. The course covers the 5 process groups (Initiation, Planning, Executing, Controlling & Closing) across the 9 knowledge areas of project management: scope, time (schedule), cost, quality, human resources, communications, procurements and risk management, and the professional responsibilities. The course includes tips and tricks and review questions, which help pass the exam easily.

Instructors Profiles

Our instructors are Certified Project Management Professionals (PMPs)

with hands-on experience in real-world projects covering a wide-range of industries such as IT, telecom, construction and petroleum industries in several countries: Saudi Arabia, Egypt, UAE and Germany.

Our certified PMP instructors are undergoing the continuous education criteria set by the PMI.

Who should attend
