**Primavera Products Summary**

---

Primavera Project Planner for the Enterprise® (P3e®) is comprehensive, multi-project planning and control suite of software for managing every project you take on. P3e facilitates project management regardless of the size or scope of your enterprise. Whether you have just one project on a laptop, or thousands on a corporate server, P3e offers a total relational picture of their status. Program and project managers, as well as dedicated planners and schedulers, rely on P3e for the most complete insight into all of their projects-from summaries by cost account and work breakdown structures, to proactive control of project deadlines, issues and risks. By focusing on the full project lifecycle, P3e gives you the ability to plan, budget, monitor, and control all your projects with efficiency and foresight.

Primavera Project Planner Enterprise for Construction® (P3e/c®) is tailored to meet the specific needs of the construction industry. It raises the standard by which all project management tools are measured, delivering a solution that keeps you on top of your projects and ahead of your competition. P3e/c has all P3 functionality but now in a powerful client/server environment with unlimited codes, code lengths, multi-level project hierarchy, integrated timesheet reporting tool, project template manager and more.

Primavera Project Planner® (P3®) is the established industry leader in high-end project management. P3 gives today's project managers and schedulers the one thing they value most: control.

SureTrak® Project Manager is simply project management software that yields professional results quickly and easily. It is the perfect combination of ease-of-use, power and affordability, and it is ideal for resource planning and control on small- to medium-sized projects. Anyone can learn to use ST, and it is especially beneficial to those who only have a few hours weekly to update & manage their projects.

Expedition® gives your project managers and contract administrators the peace of mind that knowledge of all project information provides. Contracts, changes, cost control, drawings, submittals, meeting minutes, correspondence and more are all linked to critical issues and presented to you on demand. This tool provides your project team with a clear, consistent approach to managing your projects.

The Primavera Evolve® solution is - and always has been - designed specifically for service delivery optimization.
